

## **nLogic Sweden and Cato Networks Announce SASE Collaboration**

*Stockholm, October 7, 2025* - nLogic Sweden, a leading IT infrastructure partner within networking and security, today announced a new collaboration with Cato Networks to deliver Secure Access Service Edge (SASE) to Swedish enterprises.

Cato Networks, a recognised leader in SASE, provides enterprise-grade networking and security through a converged, cloud-native platform. Through this collaboration, nLogic Sweden can offer customers a solution that replaces legacy infrastructure, reduces complexity, and supports cloud migration, hybrid work, and international expansion.

With one of the strongest technical teams in the Nordic region, nLogic Sweden brings extensive expertise in designing, implementing, and operating business-critical networks. This competency ensures that enterprises adopting the Cato SASE Cloud Platform can rely on a trusted partner to tailor and optimise solutions to their specific needs.

nLogic Sweden views the collaboration with Cato Networks as an important step in strengthening its portfolio of secure and flexible network infrastructure solutions. By combining Cato's innovative SASE platform with nLogic's local expertise, Swedish enterprises can benefit from a more streamlined and future-ready IT environment.

"Through our collaboration with Cato Networks, we can offer Swedish businesses a modern, secure, and comprehensive SASE platform. This enables our customers to accelerate digital transformation and focus on their core business," says Fredrik Ernlund, Security Sales, nLogic Sweden.

"Our technical team has long experience in integrating and securing large-scale network environments. With the Cato SASE Cloud Platform, we can combine this competency with a future-proof architecture that truly simplifies operations for our customers," says Marcus Wahlberg, CEO, nLogic Sweden.

For Cato Networks, the agreement marks a key step in expanding its footprint in the Nordic region. With nLogic's local expertise and strong customer relationships, more Swedish enterprises will be able to benefit from the Cato SASE Cloud Platform.

"We are delighted to collaborate with nLogic Sweden, a company with deep technical expertise and extensive experience in delivering business-critical IT solutions. Together, we can provide Swedish enterprises with a secure, modern, and comprehensive SASE solution that meets their evolving needs," says Mark Draper, AVP of Channel Sales, EMEA at Cato Networks.
